

TitanHQ WebTitan & T-Mobile CIPA Program 2020

Advanced DNS Web Filter With Real-Time Malicious Threat Detection and DNS web categorizations. Stop the risk of malware, ransomware, phishing and zero-day attacks before they harm your network. WebTitan is a vital web security layer for your business or school or home use.

CIPA is concerned with images and video content. To comply with CIPA, all images and video content of a pornographic or obscene nature must be blocked. That includes photographs, illustrations, cartoons, videos, and other graphics deemed to be obscene. Images of child abuse and child pornography must also be blocked.

Below is the CIPA filtering policy we apply to all T-Mobile CIPA clients:

Our CIPA compliance filtering addresses all of these issues for your school

We provide your school with the following:

Blocked Categories

These categories of websites are automatically blocked at source:

Anonymizer - Web pages that promote proxies and anonymizers for surfing websites with the intent of circumventing filters

Compromised - Web pages that have been compromised by someone other than the site owner, which appear to be legitimate, but house malicious code

Criminal Skills / Hacking - Activities that violate human rights including murder, sabotage, bomb building, etc. Information about illegal manipulation of electronic devices, encryption, misuse, and fraud. Warez and other illegal software distribution

Hate Speech - Web pages that promote extreme right/left wing groups, sexism, racism, religious hate and other discrimination

Illegal Drugs - Web pages that promote the use or information of common illegal drugs and the misuse of prescription drugs and compounds

Mature - Sites not appropriate for children. Includes sites with content about alternative lifestyles, profanity, etc.

Nudity - Web pages that display full or partial nudity with no sexual references or intent

Phishing/Fraud - Manipulated web pages and emails used for fraudulent purposes, also known as phishing

Pornography / Sex - Explicit sexual content unsuitable for persons under the age of 18

Spam - Products and web pages promoted through spam techniques

Spyware and Malicious Sites - Sites or software that installs on a users computer with the intent to collect information or make system changes without the users consent.

Violence - Web pages that promote questionable activities such as violence and militancy

Safe Search - SafeSearch helps keep adult & potentially offensive content out of your search results including image searches and web searches.

Safe Search is enabled automatically for **Google, YouTube, Bing and Duckduckgo**.

Any questions please reach out to your T-Mobile Rep.
